# ABOUT US

DSF is a registered 501(c)3 non-profit organization located in Temecula, California with a goal of bringing more adaptive sports to the area they serve. Sports and physical activity have been proven to provide both physical and mental health benefits to those that participate. Adaptive sports are especially beneficial to individuals living with a disability. The DSF believes that everyone can play, so are working to break down the barriers and get people off the sidelines and into the game.

Ultimately, the DSF aims to build a sports and recreation complex specifically designed to accommodate the requirements of the local special needs community. The proposed complex will cover a 5+ acre area in the Inland Empire of Southern California comprised of various sports fields/courts, among other specially designed accommodations. The membership-based complex will provide low cost memberships exclusively to special needs individuals and their families and managed by a volunteer board of directors.

# WHAT WE DO ?

## ADAPTIVE SPORTS

We believe that everyone can play if the activity is presented in a manner that works for the individual. Adaptations exist to help with virtually any sport. So, if you want to get off the sidelines and into the game, we want to make it happen.

## INCLUSIVE SOCIAL SKILLS

Our Inclusive Social Skills Program is held twice per year in cooperation with the City of Temecula. The purpose of the program is to provide opportunities for social engagement for special needs participants.

# OUR GREAT TEAM

Our team brings together a unique variety of skills, knowledge and experience. From military, business, accounting, legal, behavioral therapy, logistics to special needs parenting, our team can guide us into the future regardless of what it may bring.
